Round 1 - Fit & Ease of Use (25 points)	Fit (15)	Stays in Place	Mask doesn't shift or require frequent adjustment.	*2*	1.5	stays in place when on, but the issue is finding a setup that keeps it in place in the first case - and doesn't feel uncomfortable
		Comfortable to wear	No pinching, nose bridge compression, or orbital discomfort.	*2*	0	i just can't get a comfortable fit, no matter how many adjustments i make. the main issue is the mask puts too much pressure on my nose. and i'll be the first to admit my nose is on the larger size so this may not be an issue for you. but having tested over 20 masks, including hard shell masks, i haven't had problems like i did with this mask
		Free from sweat	Good ventilation; doesn't trap heat or moisture.	*2*	1	no sweat, but definitely moisture build up due to lack of ventalition
		Easy to Speak	No restriction around mouth/jaw.	*2*	1	possible to speak, but a lot of lip restricion makes it feel awkard
		Easy to Breathe	Nostrils not blocked; doesn't cause a claustrophobic feel.	*2*	0.5	nose was restritced - and ventilation around nose is quite poor
		Easy to put on/off	Simple, intuitive process.	*2*	1	its ok, but the dual strap system is messy, single is a lot bettter
		Even Skin Contact	Mask sits flush and maintains consistent facial contact (especially around the nose and cheeks).	*2*	1	its not even contact, but it is pretty good for a hard shell mask
		Good strap system	Adjustable, stable, not overly tight.	*1*	0.5	SEE ABOVE COMMENTS
		Total (/15)			**6.5**	**43.33%**
	Operation (10)	Simple operation	Simple buttons, logical itnerface (no need for manual), responsive buttoms	*3*	2.5	Yeah pretty straight forward, i figured out the modes - but it could be done better
		Cordless	Cord free design	*2*	0	no
		Ability to disable wavelengths	1 point to turn off NIR. One poiint to turn off Blue	*2*	1	can rune red and NIR mode, but no way to run red on it's own
		Clear & useful instructions	Think about first timers	*1*	0.5	Good manual, but nothing on the science behind how it works
		Other	Easy charging.(USB-C) Travel friendly (foldable? case?) Timer Adjustment Other things?	*2*	1	usb c, controller is coreded - but cored is too short to fit in pocket, needs to go on the waist band, does have a clip. hardshell makes it not ideal for travel, but it is lighter and less bulky than some masks. 3 modes but no brigthness or timer adjustemnts. cable has a magsafe' connection on the mask. interesting, but i don't think it serves any practical purpose. if anything i noticed it disconnected a few times which was annoying.
