Round 1 - Fit & Ease of Use (25 points)	Fit (15)	Stays in Place	Mask doesn't shift or require frequent adjustment.	*2*	2	no ossies
		Comfortable to wear	No pinching, nose bridge compression, or orbital discomfort.	*2*	2	yes - semi-soft molded diesgn, fits like a glove
		Free from sweat	Good ventilation; doesn't trap heat or moisture.	*2*	1	Didn't notice any sweat buidlip - but was mositure buildip around the mouth - needed better ventiaation. The other Rojo Mask - Dorada had a problem with sweat build up despite a similar design - because that mask has an eye insert built in to the mask that trapped heat
		Easy to Speak	No restriction around mouth/jaw.	*2*	2	no issues
		Easy to Breathe	Nostrils not blocked; doesn't cause a claustrophobic feel.	*2*	2	no issues
		Easy to put on/off	Simple, intuitive process.	*2*	2	great
		Even Skin Contact	Mask sits flush and maintains consistent facial contact (especially around the nose and cheeks).	*2*	1	not as snug as a fit as a soft shell flexible mask, but still a lot better than a hard shell mask like theraface
		Good strap system	Adjustable, stable, not overly tight.	*1*	0.5	its good, but not adjustment options
		Total (/15)			**12.5**	
	Operation (10)	Simple operation	Simple buttons, logical itnerface (no need for manual), responsive buttoms	*3*	1	I don't like it. It's a 2 step process to turn on - first the button on the mask, then u need to use the wireless remote - sometimes i have issues with it syncing, then i always worry about losing the remote. i suppose you keep it in yoru pocket but still, i would have preferred to have it all built in to the mask. And yes the icons on the mask, but you'll still need to refer to the manual to know what they all do etc
		Cordless	Cord free design	*2*	0.5	Its cordless yes, which is great. but - you need to use the wireless remote to turn it on and change functions. i don't like this. high chance of losing it. issues with it syncing sometimes. and it's a doubel step process to turn it on -
		Ability to disable wavelengths	1 point to turn off NIR. One poiint to turn off Blue	*2*	1	can run without blue, but NIR is on in all modes.
		Clear & useful instructions	Think about first timers	*1*	0.5	good operation info, minimal science/rlt info
		Other	Easy charging.(USB-C) Travel friendly (foldable? case?) Timer Adjustment Other things?	*2*	1	usb c, but AAAs for remote. Flexible and light enough for travel, has timer and brigtness adjustment. Uses LAsers instead of LEDs. Though I was worried about my eyes with the lasers running.

Round 2 - Therapeutic Power (25 points)	Wavelengths (10)	1x Red (630-660nm)	Gold standard for collagen & skin health.	*3*	3	665
		2nd Red (630-660nm)	Slight variation for extra potential benefits	*1*		
		Near IR (800-850nm)	Deeper penetration, synergistic with red.	*3*	3	850
		Deep NIR (>900nm)	Less studied, less dermal absorption.	*1*	1	1064
		Blue (400-470nm)	Acne control, no rejuvenation benefits.	*1*	1	460
		Amber (585-600nm)	Anti-inflammatory, skin tone/texture.	*0.5*		
		Green (520-540nm)	Low evidence; tolerable in moderation.	*0.5*		
		Total			8	
		Figure (excl blue)			**3.7**	
	Power/Dose (15)	5-9 J/cm2		*15*		Big vaiance in power readings - ranged from 4mw to 21 mw Due to lasers Note - this was also in the default setting - which was low power, and 5min run time.
		3-4 or 10-14 J/cm2		*12*	12

	Zone Coverage (15)	Forehead	Covers nearly all of area = 1.5 Covers majority = 1 Covers some = 0.5 no cover = 0	*1.5*	1	ok - lots of LEDs up there but not quite high enough
		Temples		*1.5*	1	adequate - leds could come firther around
		Crows feet		*1.5*	0	Lasers are too far away
		Under eyes		*1.5*	0	same issue
		Nose bridge		*1.5*	0	nothing
		Nose		*1.5*	1	one of the better options for the nose - but still not perfect,
		Cheeks		*1.5*	1	good - butchips are not dense enough and using LASERs vs LEDs
		Lips		*1.5*	1	good - however could still be better
		Chin		*1.5*	1	leds do come down low here, but still lots of gaps
		Jawline		*1.5*	0.5	not enough chips
