Round 1 - Fit & Ease of Use (25 points)	Fit (15)	Stays in Place	Mask doesn't shift or require frequent adjustment.	*2*	2	no ossies
		Comfortable to wear	No pinching, nose bridge compression, or orbital discomfort.	*2*	2	yes - semi-soft molded diesgn, fits like a glove
		Free from sweat	Good ventilation; doesn't trap heat or moisture.	*2*	0.5	i had sweat build up in the forhead, and felt mositure build up around the mouth - even though there are vents there, i think the built in eye inserts stop a lot of much needed ventilation
		Easy to Speak	No restriction around mouth/jaw.	*2*	2	no issues
		Easy to Breathe	Nostrils not blocked; doesn't cause a claustrophobic feel.	*2*	2	no issues
		Easy to put on/off	Simple, intuitive process.	*2*	2	great
		Even Skin Contact	Mask sits flush and maintains consistent facial contact (especially around the nose and cheeks).	*2*	1	not as snug as a fit as a soft shell flexible mask, but still a lot better than a hard shell mask like theraface
		Good strap system	Adjustable, stable, not overly tight.	*1*	0.5	its good, but not adjustment options
		Total (/15)			**12**	
	Operation (10)	Simple operation	Simple buttons, logical itnerface (no need for manual), responsive buttoms	*3*	3	yeah - all straight forward, can get it operating just with one button press, screen helps with mode changes etc
		Cordless	Cord free design	*2*	0	no, controller is longer enouygh and has a clip though
		Ability to disable wavelengths	1 point to turn off NIR. One poiint to turn off Blue	*2*	2	yes, lots of mode options
		Clear & useful instructions	Think about first timers	*1*	0.5	good operation info, minimal science/rlt info
		Other	Easy charging.(USB-C) Travel friendly (foldable? case?) Timer Adjustment Other things?	*2*	2	usb c, semi soft shell, still ok for traveling, optional neck/chin addon, brigthness adjustment, pulsing, lots of modes. no timer adjustment
