Round 1 - Fit & Ease of Use (25 points)	Fit (15)	Stays in Place	Mask doesn't shift or require frequent adjustment.	*2*	2	No issues
		Comfortable to wear	No pinching, nose bridge compression, or orbital discomfort.	*2*	1.5	It is good - though the nose placement seems a little off, nose cutout needed to be slighlty higher - wife noticed the same thing. You can move it higher, but then the top lip LEDs are too high, and the strap catchs on the bottom of the ears
		Free from sweat	Good ventilation; doesn't trap heat or moisture.	*2*	2	No issues, only 3 min run time
		Easy to Speak	No restriction around mouth/jaw.	*2*	2	No issues
		Easy to Breathe	Nostrils not blocked; doesn't cause a claustrophobic feel.	*2*	2	No iossies
		Easy to put on/off	Simple, intuitive process.	*2*	2	Simple, no fuss
		Even Skin Contact	Mask sits flush and maintains consistent facial contact (especially around the nose and cheeks).	*2*	1	good around cheeks, nose and eye, not so much around forehead and jaw
		Good strap system	Adjustable, stable, not overly tight.	*1*	0.5	No way to adjust it - and i think lots of people will find the strap to long. Though it is comfortable and easy to use. And its designed into the mask which is nice
		Total (/15)			**13**	
	Operation (10)	Simple operation	Simple buttons, logical itnerface (no need for manual), responsive buttoms	*3*	3	Perfect - even shows time remaining
		Cordless	Cord free design	*2*	0	And the cord isn't long enough to stay in pokcet
		Ability to disable wavelengths	1 point to turn off NIR. One poiint to turn off Blue	*2*	2	Yes, can run Red without blue and NIR. And Red with NIR, and Red with Blue
		Clear & useful instructions	Think about first timers	*1*	0.5	Could go deeper into RLT
		Other	Easy charging.(USB-C) Travel friendly (foldable? case?) Timer Adjustment Other things?	*2*	1	- controller comes with port for neck addon travel freindly, usb c. no timer adjustment. lots of different modes for various goals, cord length is annoying

		Near IR (800-850nm)	Deeper penetration, synergistic with red.	*3*	3	850
		Deep NIR (>900nm)	Less studied, less dermal absorption.	*1*	1	1070nm - though very few of these chips.
		Blue (400-470nm)	Acne control, no rejuvenation benefits.	*1*	1	463
		Amber (585-600nm)	Anti-inflammatory, skin tone/texture.	*0.5*

		Nose		*1.5*	1	4 LEDs - still not complete nose coverage
		Cheeks		*1.5*	1.5	no issues
