Round 1 - Fit & Ease of Use (25 points)	Fit (15)	Stays in Place	Mask doesn't shift or require frequent adjustment.	*2*	2	Mask is actually a near identical design to the MitoRed light Mitoclear mask
		Comfortable to wear	No pinching, nose bridge compression, or orbital discomfort.	*2*	2	Felt fine, a little bit of lower lip obstruction
		Free from sweat	Good ventilation; doesn't trap heat or moisture.	*2*	2	No issues
		Easy to Speak	No restriction around mouth/jaw.	*2*	1.5	Its fine - but it does catch on my lower lip which feels wierd.
		Easy to Breathe	Nostrils not blocked; doesn't cause a claustrophobic feel.	*2*	1	Minor nostril obstruction under the nose - interesting asthe mask is nearly identical to the MitoClear, except for around the nose/mouth area. As the Mitoclear doesn't have this issue.
		Easy to put on/off	Simple, intuitive process.	*2*	2	
		Even Skin Contact	Mask sits flush and maintains consistent facial contact (especially around the nose and cheeks).	*2*	1.5	good around cheeks, nose and eye, not so much around forehead and jaw - but smaller mask size means it's not that big of an issue for the areas it's covering
		Good strap system	Adjustable, stable, not overly tight.	*1*	0.5	its ok - but I would like to see something more solid and comfortable. Only has a single trap point and strap is pretty basic. Kala for instance have a much better design
		Total (/15)			**12.5**	
	Operation (10)	Simple operation	Simple buttons, logical itnerface (no need for manual), responsive buttoms	*3*	3	works well. 3 options
		Cordless	Cord free design	*2*	0	has a cord to the controller. fits in pocket though
		Ability to disable wavelengths	1 point to turn off NIR. One poiint to turn off Blue	*2*	1	Has red and NIR mode. Blue mode. And red, NIR and blue mode. No Red only mode
		Clear & useful instructions	Think about first timers	*1*	0	No manual included. Disapointing.
		Other	Easy charging.(USB-C) Travel friendly (foldable? case?) Timer Adjustment Other things?	*2*	1.5	folds up small, usb c charging, only one timer option. Has a mode with blue and red and NIR running.

Round 2 - Therapeutic Power (25 points)	Wavelengths (10)	1x Red (630-660nm)	Gold standard for collagen & skin health.	*3*	3	630
		2nd Red (630-660nm)	Slight variation for extra potential benefits	*1*		
		Near IR (800-850nm)	Deeper penetration, synergistic with red.	*3*	3	830
		Deep NIR (>900nm)	Less studied, less dermal absorption.	*1*		
		Blue (400-470nm)	Acne control, no rejuvenation benefits.	*1*	1	460
		Amber (585-600nm)	Anti-inflammatory, skin tone/texture.	*0.5*		
		Green (520-540nm)	Low evidence; tolerable in moderation.	*0.5*		
		Total			7	
		Figure (excl blue)			**20.2**	
	Power/Dose (15)	5-9 J/cm2		*15*		The session timer runs for 20mins - which measn the total delivered energy is on the higher side of ideal. It's a shame as a 10 min session time would have been near perfect. Of course you can take it off after 10minutes - but as the controller doesn't have a built in timer display you have to time it yourself. Saying this - you'll still see solid results with a 20min session, it's still not over powerd, just not ideal

Round 3 - Coverage Quality (25 points)	LED Chip Count (10)	500+		*10*		66 triple chip LEDs - so 198 chips. But effectively only 132 chips - in Red and NIR.

	Zone Coverage (15)	Forehead	Covers nearly all of area = 1.5 Covers majority = 1 Covers some = 0.5 no cover = 0	*1.5*	1	Could go higher
		Temples		*1.5*	0.5	needs to be wider
		Crows feet		*1.5*	1.5	
		Under eyes		*1.5*	1	good under eye exposure
		Nose bridge		*1.5*	1	
		Nose		*1.5*	1	2 leds on the centre line of nose - nothing ont he side though
		Cheeks		*1.5*	1.5	
		Lips		*1.5*	0.5	my mouth sits low - so i do get a bit of coverage on the lower lip
		Chin		*1.5*	0	nothing on the chin
		Jawline		*1.5*	0.5	The problem with this mask is that it's a bit small. I don't have a large face - but really this is suited for people with really small facial structures/head shape. I do wonder if these masks are designed with petite asians in mind, as I have seen this alot with thrse RLT masks
